To whom it may concern,

It is my great pleasure to personally recommend Xiao Feng Huang for the role of Backend Software Developer. Xiao was a great asset to Joseph Ribkoff during his stay with us. As Enterprise Architect and Development Manager, I can assure you that Xiao is an outstanding employee who will quickly become an integral member of your organization as well.

When we hired Xiao, it was crucial that we make our very short timeline on the delivery of our web platform. He participated to the requirement gathering meeting and quickly understood the challenges and figured out a solution to our issues. With his positive thinking and his punctuality, he was able to prepare a POC in matter of days.

Since his first day, he had a great attitude towards the project and his teammate. I am confident that he will continue to exceed expectations and grow even more during his professional career.

I have no reservations giving Xiao my recommendation for this position. I am confident he will become invaluable addition to your organization. Please feel free to contact me if you have any questions regarding Xiao's character or capabilities.

Sincerely,

Walid Hikmat

Enterprise Architect & Development Manager
